Message from the Founder

A warm welcome to KIIT School of Law (KLS)!

We take pride in the fact that KLS strives to make its students competent enough to confront the emerging challenges and to respond to the growing dimensions of the legal profession by virtue of its innovative teaching method that provides the best of exposure to the students.

Established in 2007 to meet the growing demand for legal professionals in the wake of globalization and rapid expansion of India's economy, KLS has been recording excellent placement every year since the first batch graduated in 2012. With equal emphasis on academic placement, many students find success in higher educational institutions in India and abroad. Some students have also ventured into litigation and legal entrepreneurship, while some others have joined judicial services.

The credit for the record placement year after year goes to the combined effort of the students, staff and faculty members of KLS, particularly its Placement Cell. In fact, KIIT has been able to attract many globally reputed companies and law firms due to its strong brand value.

As we tread the difficult path to keep educational standards high and relevant to all the stakeholders, I urge you to keep contributing positively to this great institution to take it to even greater heights of educational excellence.

Art of Giving

Art of Giving founded by Shri Achyuta Samanta, Founder KIIT & KISS is not-for-profit initiative for spreading awareness, supporting and promoting practice of the art of giving around the world for ushering in a revolution around the globe for establishment of a just and equitable society.

Art of Giving (Philosophy of Life)

One need not be very rich to give something back to the society, rather one must be poor to know the luxury of giving. Charity is an important tenet in every religion because compassion is essential for every human being. 'Daan' in Hinduism and Buddhism, 'tithe' in Christianity and 'Zakat' in Islam uphold the philosophy of giving.

One must understand that "Happiness does not result from what we get, but from what we give." Giving is not always giving only material goods which are just one form of generosity. It is rather an attitude for "Being kind, attentive and honest in dealing with others; offering praises where it is due; giving comfort and advice where needed and simply sharing with some one – all these are forms of generosity and these do not require any particular level of material wealth." That is what we mean by 'Art of Giving'. Let the 'Art of Giving' as a value be inculcated in every heart, because we make a living by what we get, but we make a life by what we give.
