Message from the Founder

A warm welcome to KIIT School of Law (KLS)!

We take pride in the fact that KLS strives to make its students competent enough to confront the emerging challenges and to respond to the growing dimensions of the legal profession by virtue of its innovative teaching method that provides the best of exposure to the students.

Established in 2007 to meet the growing demand for legal professionals in the wake of globalization and rapid expansion of India's economy, KLS has been recording excellent placement every year since the first batch graduated in 2012. With equal emphasis on academic placement, many students find success in higher educational institutions in India and abroad. Some students have also ventured into litigation and legal entrepreneurship, while some others have joined judicial services.

The credit for the record placement year after year goes to the combined effort of the students, staff and faculty members of KLS, particularly its Placement Cell. In fact, KIIT has been able to attract many globally reputed companies and law firms due to its strong brand value.

As we tread the difficult path to keep educational standards high and relevant to all the stakeholders, I urge you to keep contributing positively to this great institution to take it to even greater heights of educational excellence.
